

CS 393
West Virginia University at Parkersburg
Co-Operative Education

Week 8 - July 8-14

Tasks:

Meetings about scopes of new projects - talk about methodologies (Decisions to use Strong TDD, Agile methodologies, 2 week sprint cycles)

Beginning of review of current architecture.

Statistics gathering for current system, examining logs and cycles for growth rates

Discussions of growth rate and performance targets for new project, 1 year and 2 year timeframes.

Documentation of existing structures, and begin cleanup of prototype code before migration of repository.

Technical Summary:

This week my new project made a lot of progress - we fleshed out specific product methodologies that we are going to use, and started doing some analysis of the project space.

-JUnit

-Java

-OmniGraffle/Visio

-Confluence/Wiki Documents
