

CS 393
West Virginia University at Parkersburg
Co-Operative Education

Week 10 - October 21-27

Tasks:

Catch up on code reviews

Backport some code changes to branch

Technical Summary:

I spent several days catching up on code reviews that had stacked up, both other peoples code, and reviews others had submitted against mine.

I also spent 2 days porting a change from our mainline branch to an older branch that we needed for a set of servers.
