

CS 393
West Virginia University at Parkersburg
Co-Operative Education

Week 13 - November 11-17

Tasks:

Help monitor new feature as it was turned on.

Review error logs from deployments

Meetings with old team

Technical Summary:

This week we turned on a new feature and spent several days monitoring and tweaking it. I spent time going over the logs of our recent deployments and filed bugs based on what I found. I also spent more time with my old team, helping them with the processes for our server deployments.

-Java

-Proprietary Reporting, statistics systems.

-Confluence, Wiki markup
