CS 393
West Virginia University at Parkersburg
Co-Operative Education

September 9 - 15 Week 4

Tasks:
Co-ordinate and document server launch procedures
Wrote batch crawler & debugged

Technical Summaries:
This week I spent most of the time writing a job that will crawl a set of data looking for specific irregularities and clean them up.
I also spent time discussing and documenting some changed procedures for launching new server software.

- Confluence/Wiki Markup
- Java
